Team ID	PNT2022TMID15486
Project Name	Smart Fashion Recommendation Application

Creation of Chatbot:

The screenshot displays the IBM Watson Assistant Lite web interface. The browser address bar shows a URL from `au-syd.assistant.watson.cloud.ibm.com`. The interface has a dark blue header with navigation links like 'IBM Watson Assistant Lite', 'Upgrade', and 'Smart Fashion'. A sidebar on the left contains icons for 'Actions', 'Variables', and 'Saved responses'. The 'Actions' section is active, showing a table with the following data:

Name	Last edited	Examples Count	Status
Smart Fashion	a few seconds ago	12	✓

Below the table, it indicates 'Items per page: 50' and 'Showing 1-1 of 1 actions'. A 'Preview' button is located at the bottom right of the interface. A notification banner at the top of the main content area states: 'Actions sit at the core of the new Watson Assistant build process. Think of them as problems or tasks that your customers want your assistant to resolve for them. They include the complete interaction between a customer and your assistant for a specific question or request.'

Integration of Chatbot with HTML web page:

The screenshot displays the IBM Watson Assistant Lite interface in a web browser. The browser's address bar shows the URL: `au-syd.assistant.watson.cloud.ibm.com/crm%3Av1%3Abluemix%3Apublic%3Aconversation%3Aau-syd%3Aa%2F048af229bba94cc0ad909897461d9f31%3Ac25a356-ce7a-48cb-b117-89f8...`. The interface is titled "Smart Fashion" and includes a "Learning center" link. On the left, a sidebar shows "Conversation steps" with three steps: 1. "To set up a meeting, I'll need a few details. First, what's your first name?" (with a "Free text" input), 2. "Thanks! And what's your last name?" (with a "Free text" input), and 3. "Where would you like me to email the calendar invite?" (with a "Regex" input). The main area, titled "Customer starts with:", lists phrases that trigger the chatbot's actions, such as "I would like to discuss my situation face to face", "I want to talk in person with someone about my case", "Is it possible to set a date?", "Looking for a dress", and "Suggest me a dress". A "Total: 12" count is shown. On the right, a "Preview" window shows a simulated chat conversation with the chatbot's responses and a "Type something..." input field.

The screenshot shows the IBM Watson Assistant Lite interface in a web browser, displaying the "Preview assistant" view. The browser's address bar shows the URL: `au-syd.assistant.watson.cloud.ibm.com/crm%3Av1%3Abluemix%3Apublic%3Aconversation%3Aau-syd%3Aa%2F048af229bba94cc0ad909897461d9f31%3Ac25a356-ce7a-48cb-b117-89f8...`. The interface includes a "Preview assistant" section with a "Copy link to share" button, a "Change background" button, and a "Customize web chat" button. The main area shows a preview of the chatbot integrated into a web page. The background image is a man in a denim jacket standing in a flower market. The chatbot interface is overlaid on the right, showing a conversation with the chatbot's responses and a "Type something..." input field. The chatbot's responses include: "To set up a meeting, I'll need a few details. First, what's your first name?", "Thanks! And what's your last name?", and "I'm afraid I don't understand. Please rephrase your question." The chatbot is labeled "Watson Assistant" and "Built with IBM Watson®".
